

MOFFETT M5000 FORKLIFT

Moffett M5000 Tailgater Mounted Forklifts

The M5000 Tailgater Mounted Forklift is solutions to logistics challenges across a diverse range of industries, ensuring that deliveries arrive on time, innovative designs mean that it can be carried on the rear of a truck or trailer with no loss of load space. There is no more waiting for local off loading equipment and means safer, faster and more cost effective deliveries. Suitable for many different applications: Turf farms, Apple and Grape orchards, Bee Hive Re-locaters, Construction sites and Brick / Payer trucks.
